Product Data Sheet

Semi-Fluid Grease (#0, #00, #000)

CountryMark Advantage™ Semi-Fluid Grease is a lithium 12-hydroxystearate lubricating grease formulated with the highest quality base oils available in NLGI grades 0, 00 and 000. This product can be recommended for many agriculture, construction and industrial applications. CountryMark Advantage Semi-Fluid Grease has been formulated with a special additive package which insures high film strength, extreme pressure (EP) and anti-wear properties.

Industrial

Agricultural

Construction

Features

Cold Temperature Performance

Benefits

The high-quality base oils used provide excellent cold temperature performance

Reduced Oil Separation

The special polymers reduce the oil separation tendency during storage and inactivity

Applications

- Centralized grease lubrication systems
- General-purpose shop/industrial grease
- Track rollers, commercial lawn mowers, crushers and vibrating screens
- Underground mining machinery and other enclosed gearboxes where oil leakage is probable

Typical Properties

	Test	CountryMark Advantage Semi-Fluid Grease		
NLGI Grade	---	#0	#00	#000
NLGI Service	D 4950	---	---	---
Thickener Type	---	Lithium	Lithium	Lithium
Texture	---	Smooth	Smooth	Smooth
Color	D 1500	Amber	Amber	Amber
Penetration, worked at 60 strokes	D 217	355-385	400-430	445-475
Drop Point, min.	D 2265	340 °F	---	---
Rust Prevention	D 1743	Pass	Pass	Pass
Copper Corrosion, max.	D 4048	1b	1b	1b
Water Washout, % loss at 175 °F	D 1264	5	---	---
Four Ball EP, mm Scar	D 2266	0.45	0.45	0.45
Weld, Kg, min.	D 2596	250	250	250
Timken OK Load, LB, min.	D 2509	40	40	40
Base Fluid Properties	---	---	---	---
cSt @ 40 °C	D 445	210	210	210
cSt @ 100 °C	D 445	17.5	17.5	17.5
Viscosity Index, min.	D 2770	80	80	80

Safety and Health

A material safety data sheet is available upon request. Avoid prolonged or repeated skin contact. Wash clothing and exposed areas with soap and water.
