Product Data Sheet

Polyurea Grease

CountryMark Advantage™ Polyurea Grease is an extreme pressure, **non-soap lubricating grease** formulated with high quality base oils. CountryMark Advantage™ Polyurea Grease is fortified with rust and oxidation inhibitors and performs well in areas where water washout is a major concern. The chemical and physical properties of this grease makes it a superb all-purpose lubricating grease. This grease meets all industry standards.

Industrial

Agricultural

Construction

Features

Rust and Corrosion Protection

Benefits

Protects susceptible parts against rust and provides excellent resistance to oxidation and excellent water resistance

High Temperature Performance

Maintains viscosity in high working temperatures, offers a dropping point of over 500°F.

NLGI Service Classification

Meets (GC-LB) performance requirements for bearing and chassis lubrication

Applications

CountryMark Advantage™ Polyurea Grease is an all purpose grease that covers a wide variety of applications in agriculture, automotive, construction and industrial equipment, such as sealed-for-life bearings, high temperature pump bearings, unsealed electric motor bearings, high speed anti-friction bearings, universal joint bearings and constant velocity joints (CVJ).

Typical Properties	D4950 Test	CountryMark Advantage Polyurea Grease
NLGI Grade	---	#2
NLGI Service	---	GC-LB
Thickener Type	---	Polyurea
Texture	---	Buttery
Color	---	Green
Operating Temperature Range	---	-40°F to 325°F
Penetration, worked at 60 strokes	D 217	265-295
Drop Point, min.	D 2265	500°F
Water Washout, % loss @ 175 °F	D 1264	<5%
Four Ball EP, mm Scar	D 2266	0.60
Weld, Kg, min.	D 2596	250
Timken Load OK Load, LB, min.	D 2509	45
Viscosity Index, min.	---	95

Safety and Health

A material safety data sheet is available upon request. Avoid prolonged or repeated skin contact. Wash clothing and exposed areas with soap and water.
